SPONSORSHIP OPPORTUNITIES

Saturday & Sunday, March 9–10, 2024

Benefits pediatric cardiac research and care at
Children's Hospital of Philadelphia

When Mia's pulmonary valve became infected, she needed open-heart surgery to replace it. Now 20, she's a busy college student with a bright future ahead – thanks to the cutting-edge care Philly Spin-In helps fund!

**Children's Hospital
of Philadelphia®**

We Ride for Little Hearts

JOIN THE MOVEMENT!

Philly Spin-In is a high-energy, team cycling party supporting the Cardiac Center at Children's Hospital of Philadelphia (CHOP). Join us for a cardio party, or take the party to your place and participate virtually! Every dollar you raise will support research and care for children with heart disease.

Last year, we raised more than \$1 million!

Teams of all skill levels can sign up to participate in person at one of three 4-hour cycling sessions led by Philly's top spin instructors. Riders can also participate from the comfort of home by livestreaming.

Whether you ride in person or at home, you'll hear inspiring patient stories, dance to heart-pumping music and help support breakthroughs in the Cardiac Center at CHOP.

AN IMPORTANT BENEFICIARY

Every day, CHOP's Cardiac Center delivers game-changing treatments, inspired by our amazing patients. Our team, which includes more than 800 of the world's top experts in pediatric heart disease, cares for children and adults with congenital heart disease. Each year, the Cardiac Center handles more than 32,000 outpatient visits and 1,200 inpatient admissions — with outcomes among the best in the world.

The Cardiac Center offers the most advanced care and treatments available and continues to make discoveries that transform patients' lives. By supporting Philly Spin-In, you help us make important new research breakthroughs to better understand the causes of congenital and acquired heart disease, develop new treatments, revolutionize care, improve long-term outcomes and offer new hope to families who need it most.

RIDE FOR AMELIA

Amelia, now 4, was still in her mother's womb when a fetal echo showed extensive heart abnormalities. She underwent open-heart surgery at just 4 days old and another at 3 months. During the nine-month hospital stay that followed, Amelia needed several cardiac interventions before finally being discharged with a g-tube and a tracheostomy. "We owe each precious moment we've gotten with her to the Cardiac Center," says Amelia's mom, Annika.

A MEANINGFUL OPPORTUNITY

Philly Spin-In offers marketing exposure for your company. The enclosed sponsorship package provides a range of options and can be customized to meet your marketing and budgetary needs. There are also opportunities for your company or organization to field a team, which is a great bonding experience and helps make a difference in the lives of children with heart disease.

CORPORATE TEAMS

Creating a corporate team for Philly Spin-In offers your employees and their families a chance to enjoy a fun, team-building experience and be involved in a community service effort to help kids with heart conditions — all in one event!

Once you register your corporate team, a company team web page will be generated, where you can display your logo and information about your company/organization, along with inspirational messages. Employees can register for your corporate team, set their own individual fundraising goals and start raising money for cardiac care and research at CHOP. Contact us at CalabreseAP@chop.edu to find out how you can start your corporate team!

RIDE FOR TYLER

Tyler was born with multiple heart defects, including double outlet right ventricle and hypoplastic left ventricle. This sweet and shy little boy has already undergone open-heart surgery and multiple cardiac catheterizations. Tyler's mom, Karleen, says she finds hope in the cutting-edge interventions and surgical procedures that keep kids like Tyler living well into adulthood. Now 5, Tyler loves playing with his siblings and recently rode his first roller coaster!

- Public recognition throughout the year on the hospital's donor display
- Creation of a custom social media plan across various CHOP platforms, including Facebook, Instagram and Twitter

The tax-deductible portion for the benefits listed above is \$24,550.

RIDE FOR KODI

A heart murmur at Kodi's 1-month-checkup led to a diagnosis of patent ductus arteriosus (PDA), a condition in which the opening between the two major blood vessels leading from the heart doesn't close after birth. Kodi needed surgery to close the vessels. Now, this bubbly 6-month-old loves to laugh and play with her big sister. Say her parents: "We're participating in Philly Spin-In to raise funds for kids like Kodi."

1 in 120 babies
is born with heart
disease each year in
the U.S. That's 40,000
babies every year!

- Public recognition throughout the year on the hospital's donor display
- Public recognition via CHOP social media platforms, including Facebook, Instagram and Twitter

The tax-deductible portion for the benefits listed above is \$14,600.

RIDE FOR LORENZO

Lorenzo was diagnosed in utero with hypoplastic left heart syndrome. By four months, he had already undergone two open-heart surgeries. Lorenzo's doctors were planning for his third and final surgery when Lorenzo went into heart failure. He received a ventricular assist device to keep him alive until a new heart could be found. In June 2022, Lorenzo underwent a heart transplant, just in time for his third birthday!
